EDUCATION

Manipal University Jaipur

Bachelor of Technology in Computer Science and Engineering (Data Science)

Expected Graduation: July, 2028

Jaipur, Rajasthan

- **GPA: 8.2/10.0**
- **Relevant Coursework:** Data Structures and Algorithms, OOPS Concepts, Database Management Systems (DBMS)

TECHNICAL SKILLS

- **Languages:** Python, C, C++, Java
- **Developer Tools:** VS Code
- **Frameworks:** Flask, FastAPI, Node.js
- **Libraries & Tools:** Scikit-learn, Pandas, NumPy, Git, GitHub
- **Databases:** MongoDB

WORK EXPERIENCE

IEEE

Oct 2024 - May 2026

Senior Coordinator of Editorial team

- Led content planning, review, and publication efforts while coordinating with team members to ensure timely delivery of technical and organizational communications.

VIRTUAL EXPERIENCE PROGRAMS

Electronic Arts

Oct 2025

Software Engineering Job Simulation

- Explored software engineering workflows and development concepts through a virtual simulation.

TATA

May 2026

GenAI Powered Data Analytics Job Simulation

- Gained exposure to data analytics and Generative AI applications in business problem-solving scenarios.

SOFTWARE PROJECTS

SUGARTRACE – Diabetes Prediction System

- Developed a machine learning-powered application to predict diabetes risk from patient health data using classification algorithms and data preprocessing techniques. Implemented model evaluation and prediction workflows to provide accurate and interpretable results through an interactive interface.
- **Tech Stack:** Python, Scikit-learn, Pandas, FastAPI, TF-IDF Vectorization, REST APIs, Machine Learning

NEUROSIELD – Phishing Detection System

- Built a phishing detection system that analyzes email and URL content using TF-IDF vectorization and machine learning classification techniques. Developed an API-based solution capable of generating real-time predictions for potentially malicious communications.
- **Tech Stack:** Python, Scikit-learn, Pandas, FastAPI, TF-IDF Vectorization, REST APIs, Machine Learning

CERTIFICATIONS, SKILLS & INTERESTS

- **Google AI Essentials Specialization - Google**
 - **Skills:** Generative AI, Prompt Engineering, Responsible AI, AI Productivity Tools
- **Google CyberSecurity - Google**
 - **Skills:** Network Security, Incident Response, Risk Management, Linux, SQL, SIEM, Security Auditing
- **Getting Started with Git and GitHub - IBM**
 - **Skills:** Git, GitHub, Version Control
- **Introduction to Software Development - Amazon**
 - **Skills:** Object-Oriented Programming, Software Testing, Debugging
- **Interests:** F1, Football, Cooking, Reading, Sci-fi, Learning new skills, Gaming
